**Silver Medal**  
International Salon des Inventions.  
Geneve, Switzerland

## Information

This exterior weather louvre is designed to be surface mounted on either fair-face brickwork or cement render with concealed plug and screw fixings.

It can be removed when required for maintenance access to the Silenceair acoustic vent from the outside of the building.

It is designed to be installed in either a vertical or horizontal format, depending on how you wish to install the Silenceair acoustic ventilator. The louvre insert is detachable and can be inserted in any orientation to maintain waterproofing.

It is made from recyclable ABS plastic and has added fire and smoke retardants and UV stabilisers. It contains recycled material.

The faceplate features a built-in insect screen concealed behind the detachable weather louvre insert.
