Information

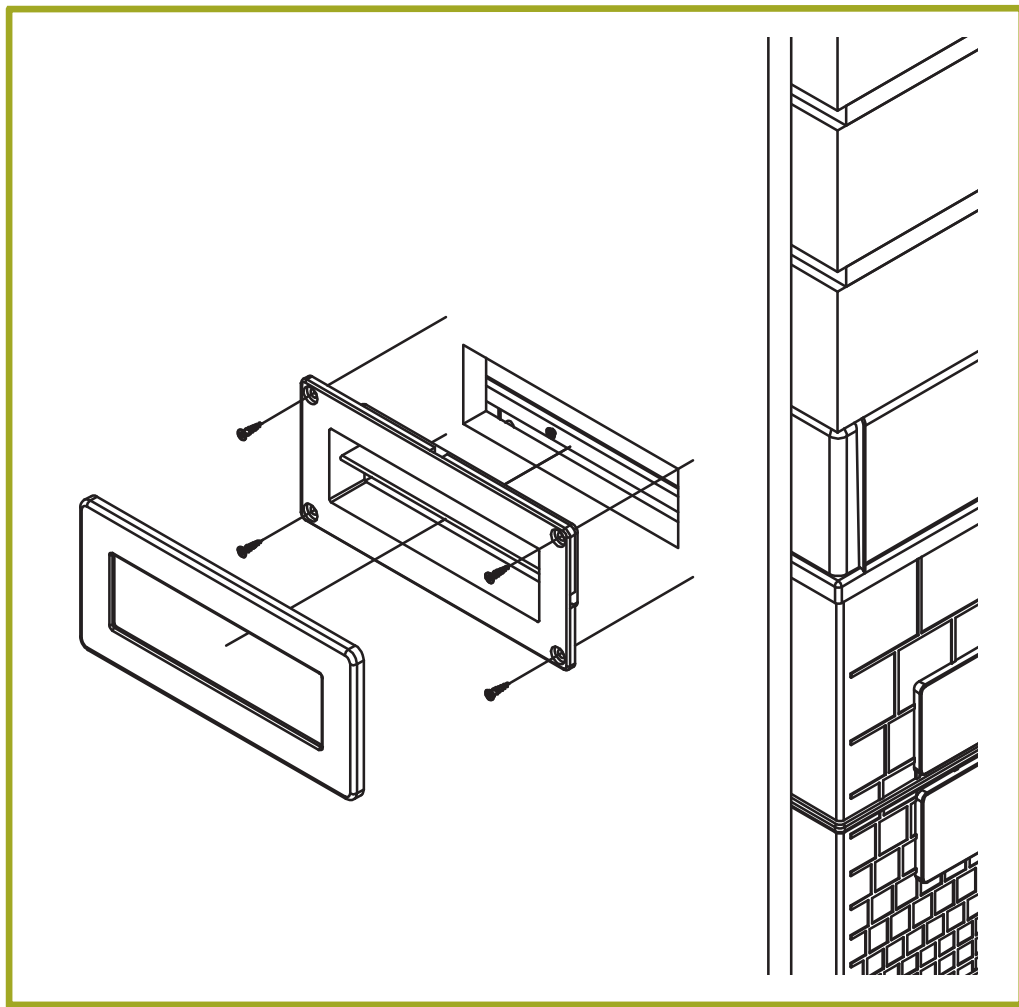

This interior faceplate is designed to be surface mounted on either plasterboard or cement render with concealed plug and screw fixings.

The cover plate can be removed when required for activities such as wall painting.

It is designed to be installed in either a vertical or horizontal format, depending on how the Silenceair acoustic Ventilator has been installed.

The adjustable Louvre is designed to be set in a number of positions from fully open to fully closed, depending on the desired air flow.

It is made from recyclable ABS plastic and has added fire and smoke retardants and UV stabilisers. It contains recycled material.
